Dreamweaver CS4/CS5 : Essential Skills I

Create compelling, feature-rich websites from start to finish using the industry standard tool in this comprehensive Dreamweaver hands on training. Your instructor will work with you to teach the nomenclature, essential workflow and techniques to designing your web pages with Cascading Style Sheets (CSS). You will learn to bring in a variety of multimedia assets such as Word documents, photography, logos, and Flash (swf) movies and video; connect to FTP sites and publish your content to your server.

Lumenbrite's instructors are Industry Experts as well as Adobe Experts. We use official Adobe training curriculum and add supplemental courseware and learning to offer you the practical, real world techniques that we use in our own projects. Courses are offered monthly at our regular locations, in addition we provide training to clients at their location across the United States. We can customize training for your organization to meet your specific needs. We encourage you to bring in your projects so that we can answer your specific questions.
