

RELATED TRAINING :

It isn't enough to know one piece of software. Most software utilize graphics or elements from other software. And now Adobe has made them easier than ever to work together. We'll show you how easy it is to make your project the best it can be. Here are a few additional classes you would benefit from.

Fl Flash Essential Skills I

Ps Photoshop Essential Skills I

Ai Illustrator Essential Skills I

Fireworks CS4/CS5 : Prototype and Web Design

Produce graphics for multiple screen resolutions faster. Adobe Fireworks renders with pixel-precise sharpness to provide Web Designers/ Graphic Creators with the knowledge and hands-on practice needed to create rich web graphics. You will learn how to use tools in Fireworks to create and edit web graphics with both vector and bitmap images, work with layers, build buttons, add rollovers, slice images, and optimize and export graphics.

Lumenbrite's instructors are Industry Experts as well as Adobe Experts. We use official Adobe training curriculum and add supplemental courseware and learning to offer you the practical, real world techniques that we use in our own projects. Courses are offered monthly at our regular locations, in addition we provide training to clients at their location across the United States. We can customize training for your organization to meet your specific needs. We encourage you to bring in your projects so that we can answer your specific questions.

Recommended Prerequisites: Basic Computer Skills on Windows or Mac.

Duration: 2 Days

Adobe Fireworks CS4/CS5 : Prototype and Web Design Lesson Plan

NEW FEATURES OF CS5 COVERED

- Optimization and Scaling Tools
