

**RELATED TRAINING :**

It isn't enough to know one piece of software. Most software utilize graphics or elements from other softwares. And now Adobe has made them easier than ever to work together. We'll show you how easy it is to make your project the best it can be. Here are a few additional classes you would benefit from.

*[Click for class details >>](#)*

- AE** After Effects
- Ps** Photoshop Essential Skills I
- AI** Illustrator Comprehensive
- FL** Flash Comprehensive

**Adobe Premiere Pro CS4**  
**Comprehensive**

Adobe Premiere Pro CS4 is a powerful program for editing digital video. Premiere helps you create dynamic video or film. This course helps you understand and work with basic through advanced concepts and features of Adobe Premiere. You will run through a typical series of steps for creating, editing and fine tuning a series of video pieces. We also recommend this course for those planning to obtain the Adobe Certified Expert status.

Lumenbrite's courses are taught by experienced developers and designers that have been certified by Adobe as expert trainers. We use official Adobe training curriculum and also add supplemental courseware to offer a truly unique training experience. Our courses are offered monthly at our regular locations as well as customer-site locations throughout the United States. We can customize training for your organization to meet your specific needs. We encourage you to bring in your work projects so that we can answer any questions you may have.

*Recommended Prerequisites:* Basic computer skills on Windows or Mac

*Duration:* 3 Days

### CLASS INTRODUCTION

About the training center  
Meet your instructor  
Meet your classmates  
What can I do with Premiere?  
Related programs in the Production Premium

### PREMIERE BASICS

Creating new Projects  
About Sources, Sequences and Monitors  
Video basics

- » Video Formats and other standards
- » Timecode
- » Cameras and video files
- » Acquiring video and adding to projects

Learning the Workspace and manipulating panels  
Adding sources and previewing files  
About the Project panel tools

### MAKING VIDEO EDITS

About the Source Monitor and Program Monitor  
Using Source Monitor Tools  
Using Timeline tools  
Previewing and Rendering Clips  
Working with layers and related tools  
Overlay and Insert Edits  
Best shortcut practices when editing  
Ripple and Rolling Edits  
Creating Sequences, Titles and Mattes

### ADDING TRANSITIONS

Working with the Effects Panel  
Adding Audio and Video transitions  
Unlinking Audio  
Creating a default transition, duration and applying to multiple clips

### SPECIALIZED EDITING TOOLS

Rolling and Ripple Edits  
Slip and Slide  
Rate Stretch tool  
Working with Variable resolutions  
Working with video offline

### VIDEO EFFECTS

Effects overview and tour  
Adding video effects and using the Effect Controls Panel  
About Effect Controls and A/B mode  
Combining Effects  
Using color correction effects  
Creating Presets  
Essential Color Correction Tools

### COMPOSITING AND KEYING

Basic Keying Effects  
Garbage Mattes to crop video  
Keylight Effect with After Effects and Dynamic Link  
Incorporating Background Images

### ANIMATION

Working with Position, Opacity and Rotation  
Adding Effect Animations Using keyframe interpolation and velocity  
Adding Blending Modes  
Creating Motion paths  
Creating Picture-in-Picture

### WORKING WITH AUDIO AND EFFECTS

Adding Audio Effects  
Adding Audio Transitions  
Using Effect Controls to manipulate audio  
VST effects overview  
Basic Audio Correction with EQs

### TIME REMAPPING AND TIMELINE MANIPULATION

Using slow-motion and reverse-motion techniques  
Speeding up clips and manipulating sound  
Using rubberbanding to remap time with variable speed transitions, and audio levels  
Change speed and length of multiple clips  
Multicamera Editing

### OUTPUTTING AND RENDERING VIDEO

Autosaved, previewed and encoded files  
Using the Adobe Media Encoder

- » Render Settings
- » Queuing video

Exporting video for different formats, including the web

### PRODUCTIVITY TOOLS

About the Media Browser  
Sequenced Images  
Using the Storyboard bin  
Audio Transcription  
Encore Essential Toolsets  
Encore and AfterEffects Dynamic Link demonstration  
SoundBooth demonstration
